LIGHTWEIGHT, COMPACT DESIGN

SAFE AND RELAXED DRIVING WITH AKS

AL-KO AKS has been tested in the most demanding conditions on all types of roads and surfaces to ensure a relaxed and stress free journey starts and finishes safely.

AL-KO AKS is simple to use and provides peace of mind for new caravanners and experienced tourers alike, with a range of safety and operation indicators.

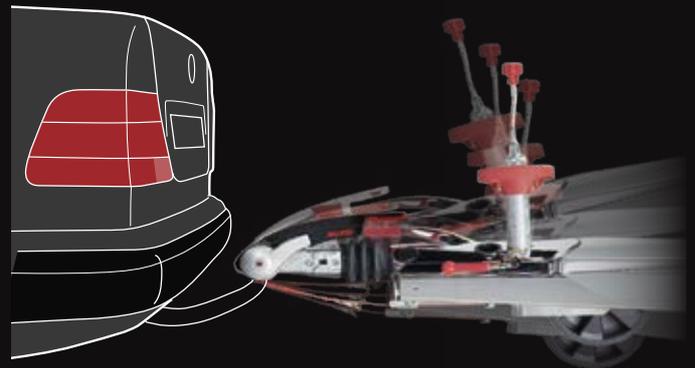

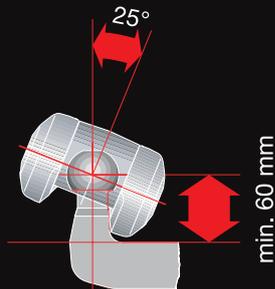

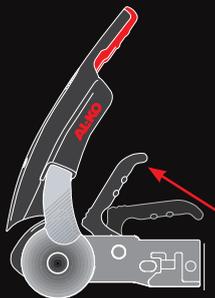

AKS 3004 STABILISER

THE NEW AKS 3004 STABILISER PROVIDES EXCELLENT RIDE COMFORT FOR YOU AND YOUR CARAVAN.

It efficiently and effectively suppresses the initial signs of caravan instability and snaking movements of a caravan or trailer.

REDUCES ROLLING AND PITCHING MOTIONS

EXCELLENT ANGULAR FLEXIBILITY FOR MANOEUVRING

PERFECT DRIVING DYNAMICS

Fitment of the AKS 3004 stabiliser significantly improves the smoothness of a journey and provides the driver with the confidence and control required to handle critical driving situations such as high cross winds and overtaking HGV's more effectively.

AKS 3004 BENEFITS

CONFIDENCE & CONTROL

SPECIALLY ENGINEERED FRICTION PADS

VISUAL COUPLING INDICATOR

OPTIMUM FRICTION DAMPING

FRICTION PAD WEAR INDICATORS

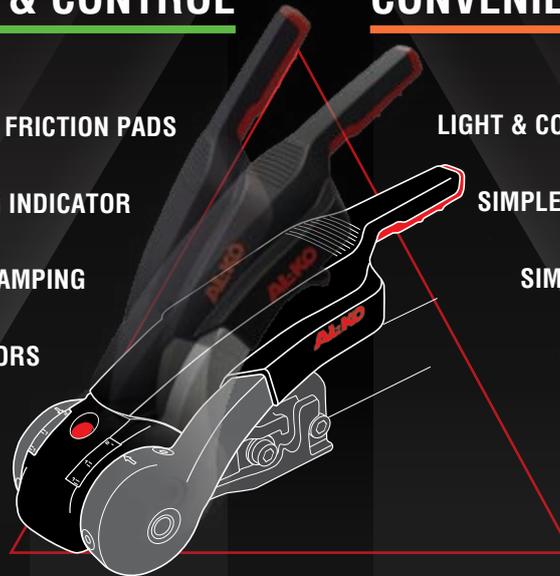

CONVENIENCE

LIGHT & COMPACT DESIGN

SIMPLE ONE-HANDED LEVER ACTION

SIMPLE TO FIT

INTEGRAL BRACKETS FOR SECURITY DEVICES

RELIABILITY

LOW-WEAR MATERIAL

LONG LIFE & CORROSION RESISTANCE

CONFIDENCE & CONTROL

1 Four special friction pads effectively suppress snaking & pitching.

2 Safe Towing - Safety fitment indicator shows correct coupling of AKS to your towing vehicle.

3&4 Reliability - Safety wear indicator provides easy monitoring of wear on the towball and all the friction pads.

RELIABILITY

Built for long life.

High resistance to corrosion.

CONVENIENCE

5 Easy to use - convenient one handed, single-lever hitching operation.

Lightweight, compact alloy construction (only 4.2kg).

6 Integrated brackets to allow fitment of AL-KO Security Device.

SAFETY AND WEAR INDICATORS

Made from low-wear material, four specially engineered friction pads surround the towball and continue to ensure optimum friction damping.

SAFETY FITMENT INDICATOR

If the green indicator is visible then you know you have correctly coupled your AKS™ 3004 to your towing vehicle.

FRICITION PAD WEAR CONTROL Left/Right Friction Pads

Friction pads are in good order.

Friction pads are worn out and need replacing.

TOWBALL WEAR CONTROL

The coloured wear indicator on the coupling handle indicates the condition of the towball. If the red segment is visible, then the towball has worn and should be replaced.
